Why us?

Proven success in **CloudMedSpa** brand delivery

We bring firsthand experience from working closely with the CMS & Vansanity teams to develop websites that precisely convey your unique offerings based on the CMS platform.

Custom development

Our expertise lies in crafting websites that encompass all the available Provider resources and tools at your location, ensuring a comprehensive and tailored online presence.

Team of experts who understands the **user experience** and how to drive response

We employ a creative and strategic approach to design, delivering beautiful and aesthetically pleasing branding that effectively communicates your CMS offering. Our designs inspire prospective providers and drive them to take action.

Our jumpstart package for provider:

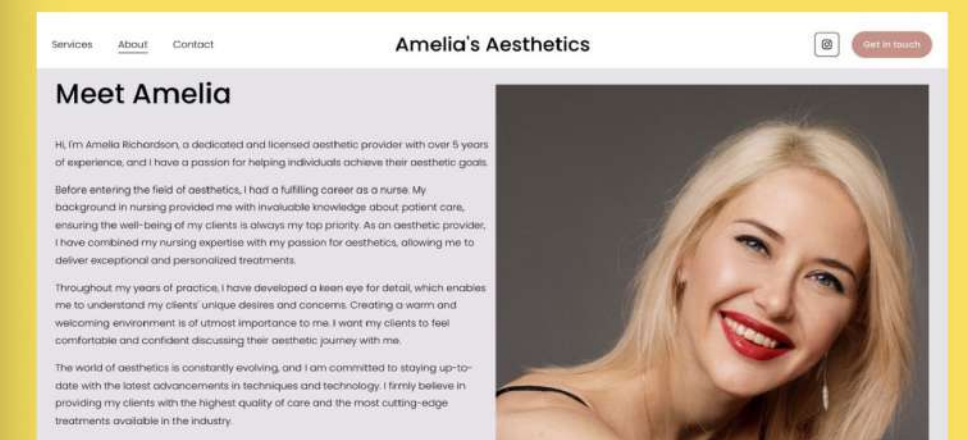

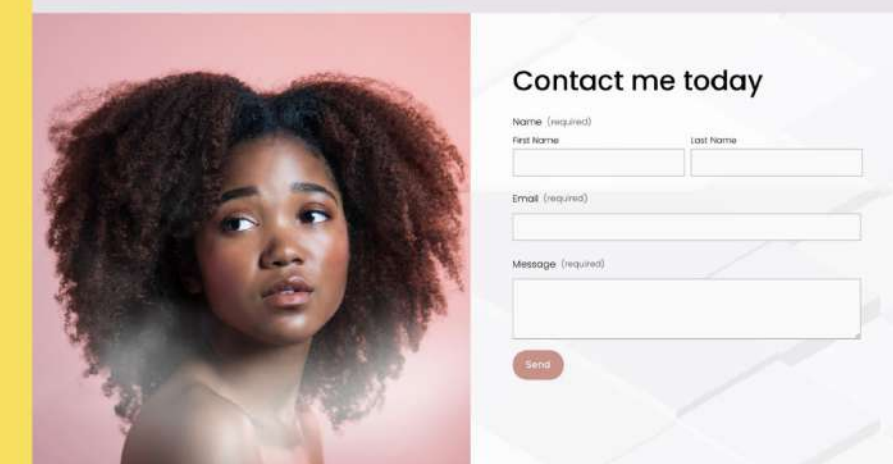

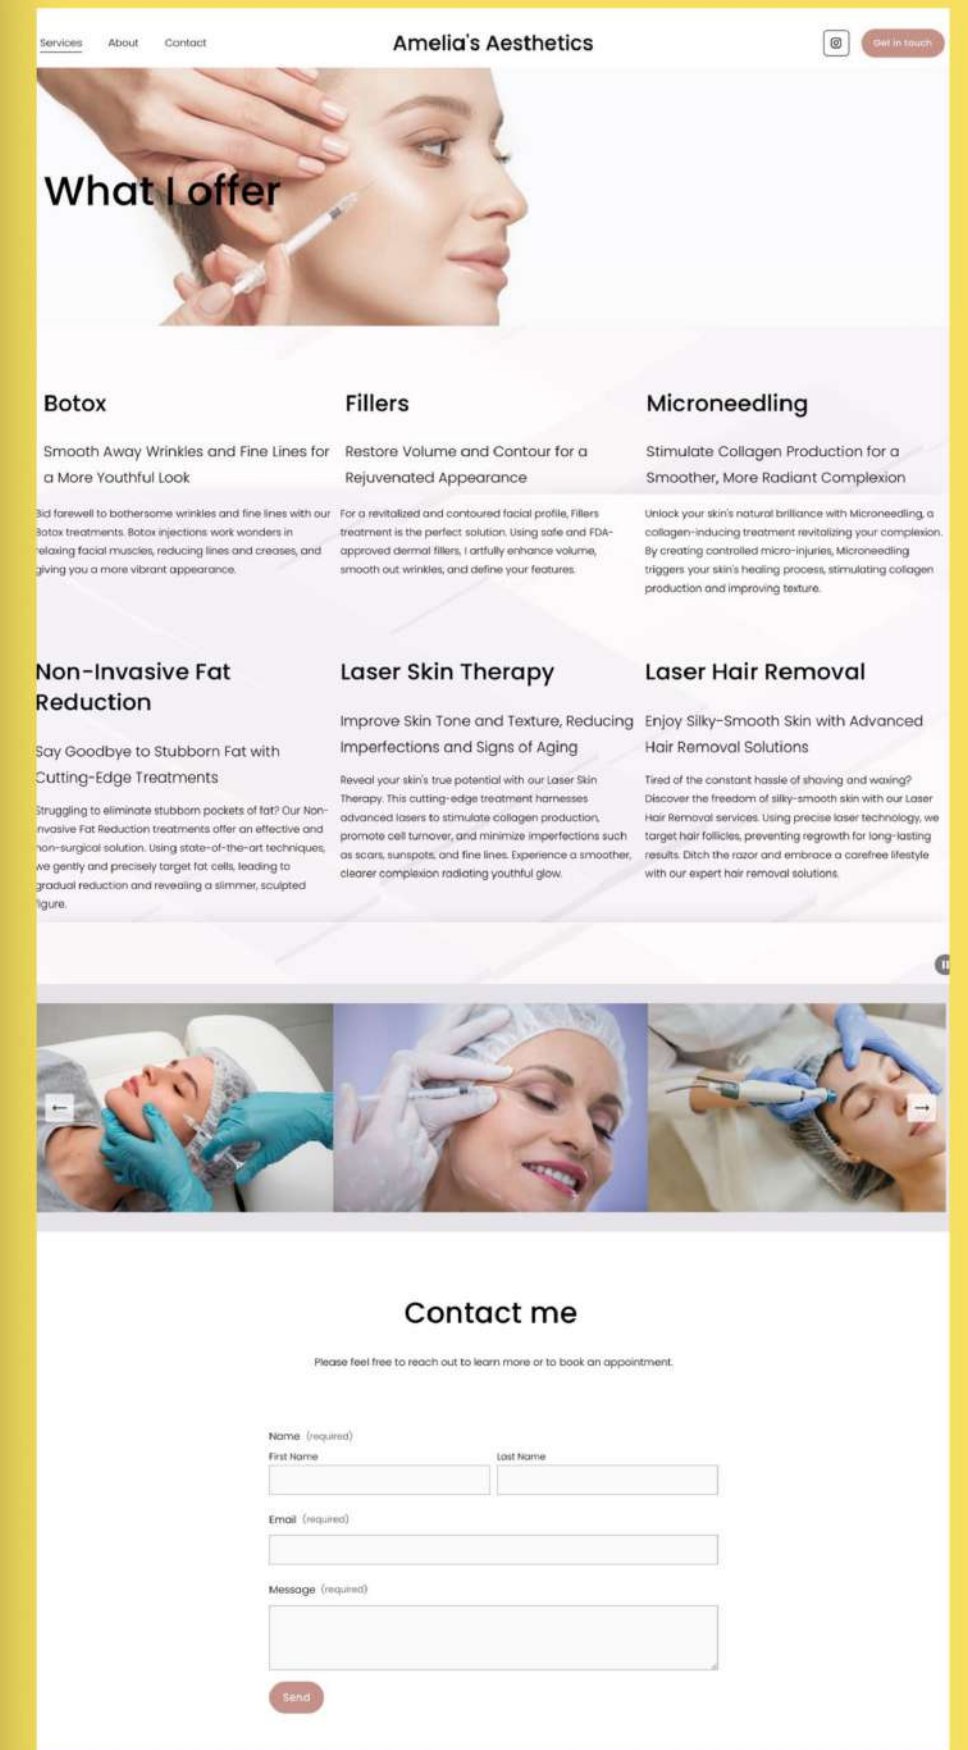

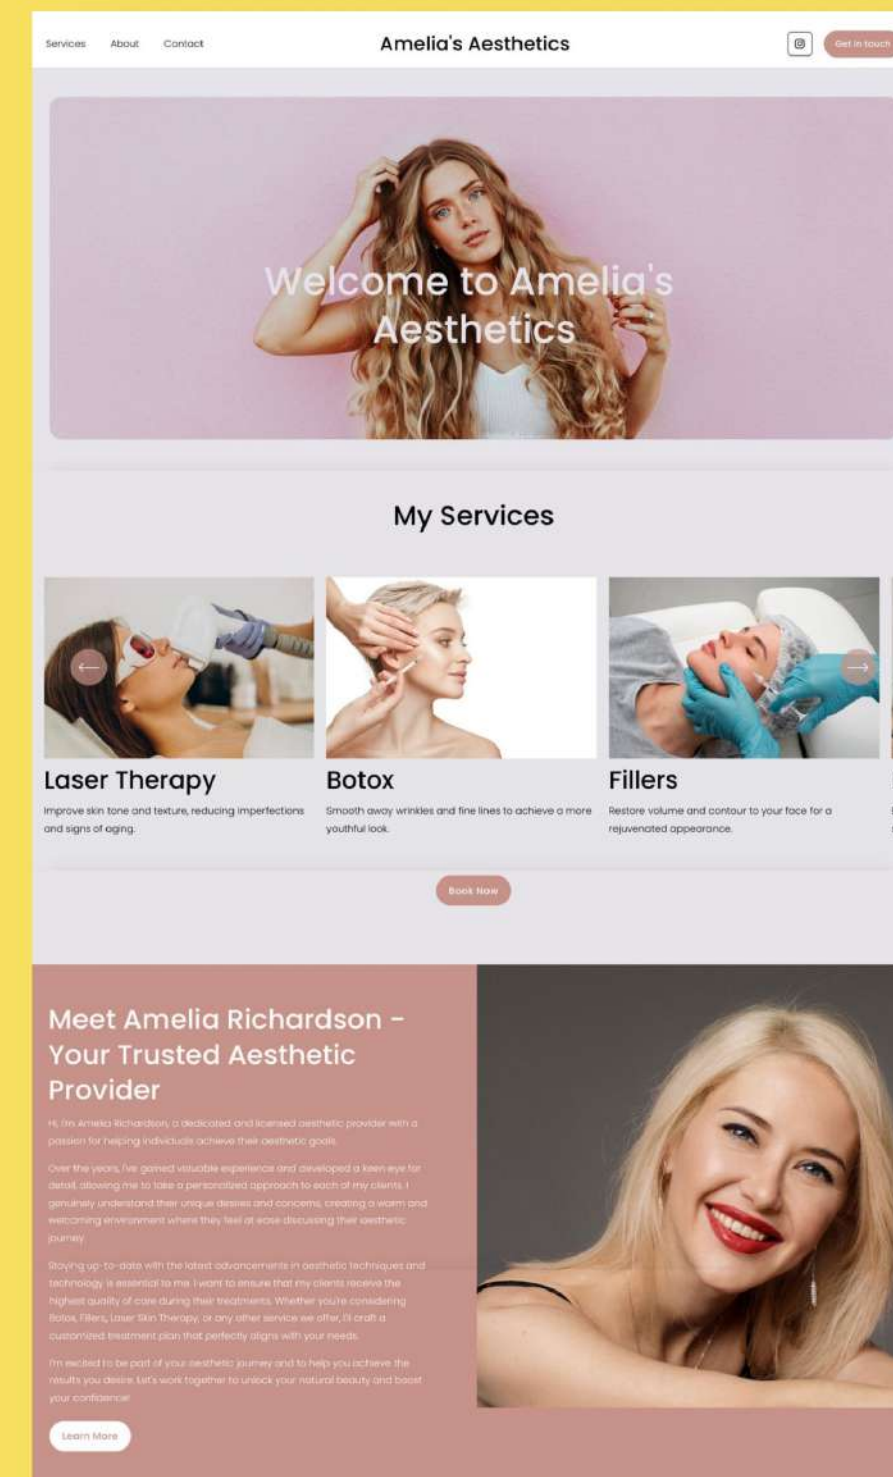

A curated website based on content and copy that is proven to be comprehensive and drive response

Key Features:

- Beautiful, responsive, and user-friendly design specifically tailored to make your business stand out.
- 3 unique pages
- Effective CTAs
- Contact forms

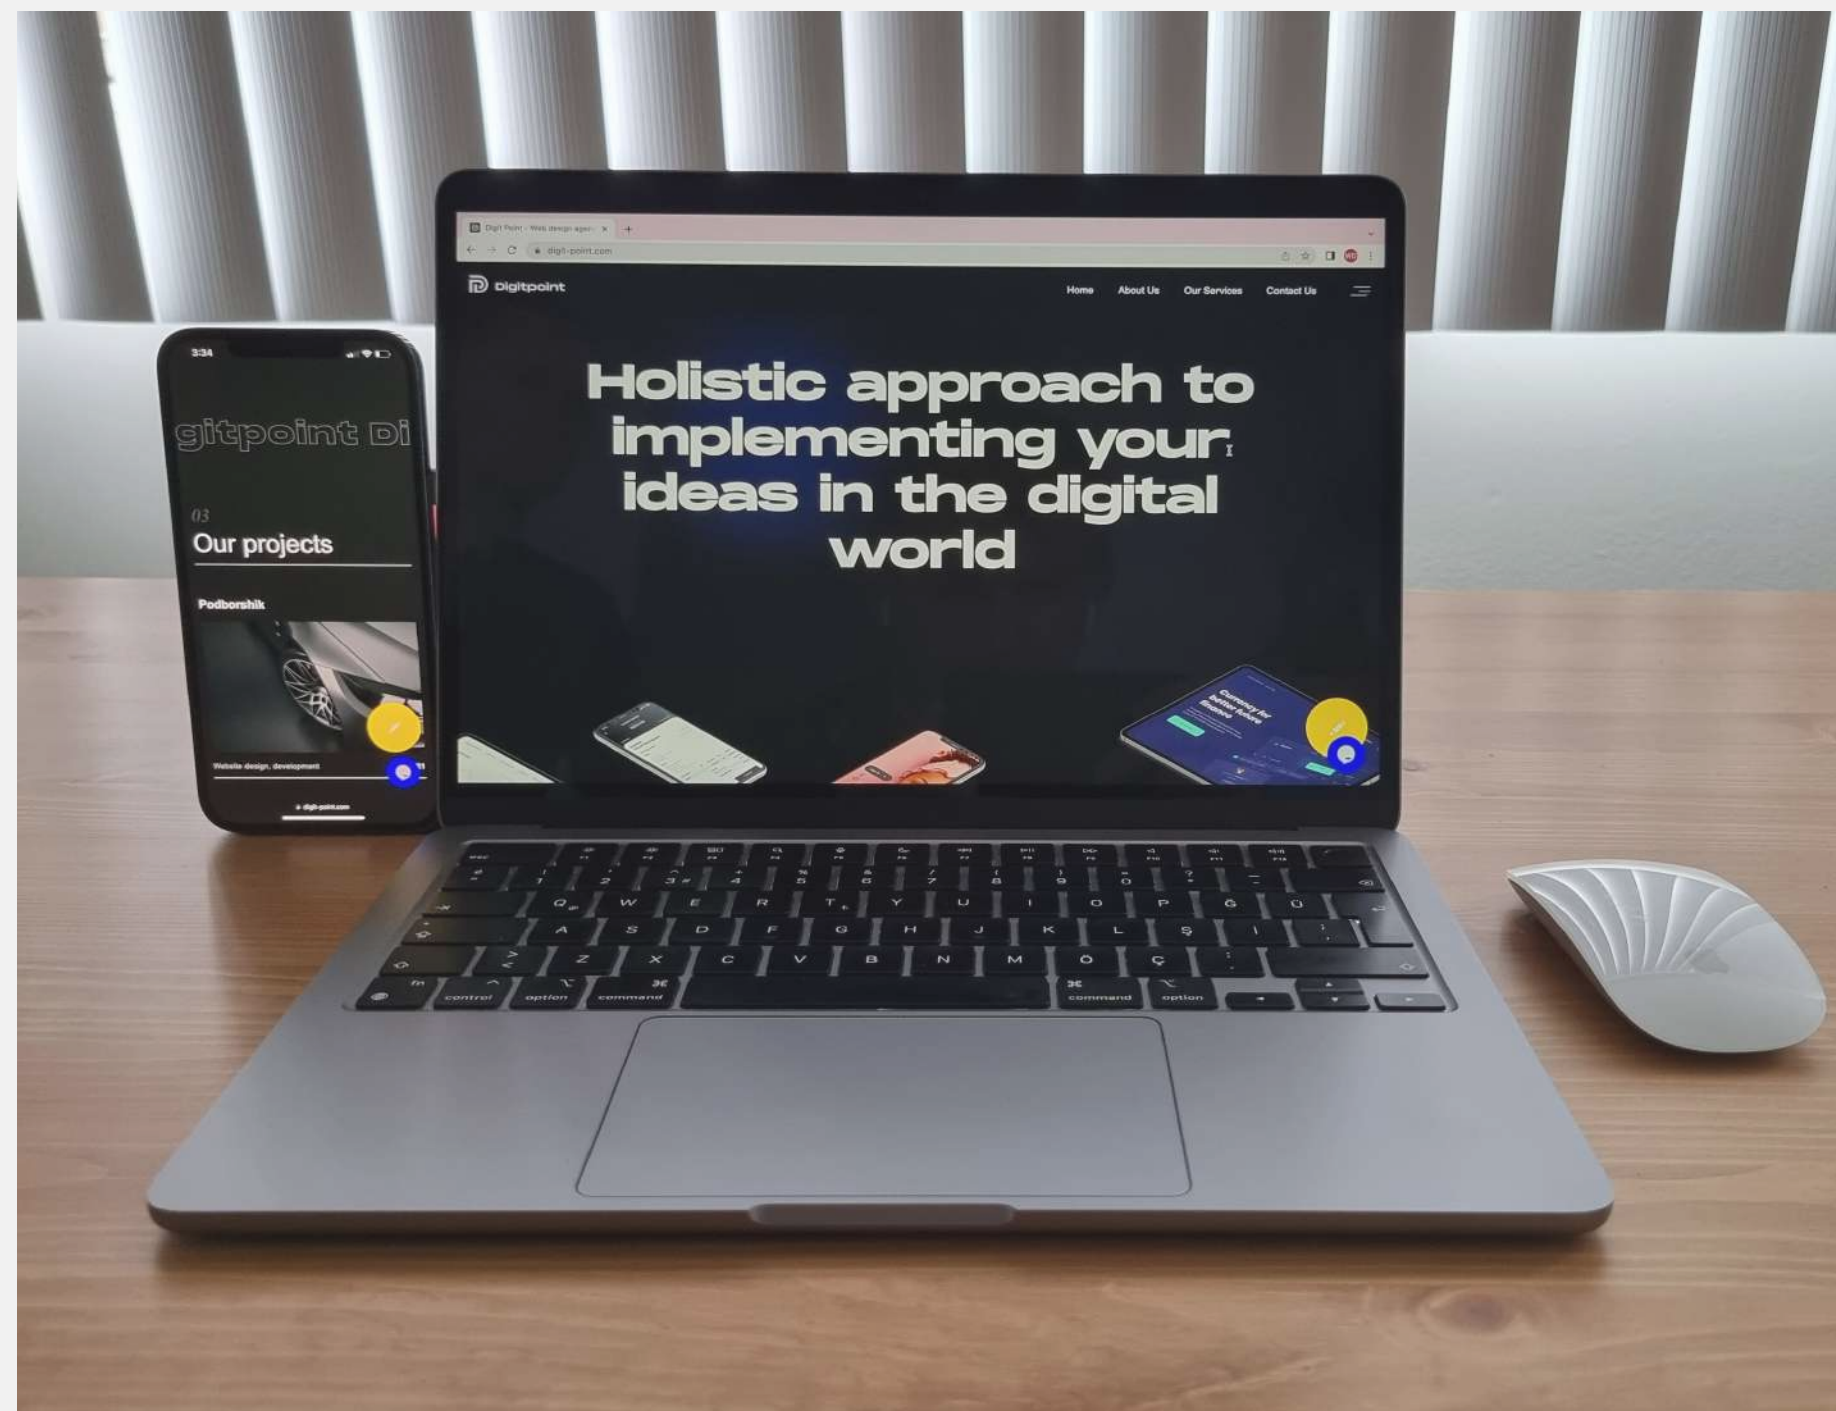

Price - \$440

* The development timeframe is 2 working days.

Support

Scope of work beyond the initial website development includes an hourly fee of \$34 per hour

Digit-Point provides ongoing support, as well as assistance in marketing materials creation, video editing, add-ons integrations, and much more.

Digit-Point's continued management of your online brand includes, but is not limited to:

- Personal support via Zoom: availability to make changes, updates, and support your business growth
- Integrated SEO marketing driving organic growth
- Social media integration into the website feed
- Blogs/content updates
- Testimonials integration
- Provider directory updates, etc...

Our 4-step process to develop your website that drives response

Step 1.

Intro Call - Discovery Session:

In a personalized consultation, our project manager will work closely with you to define the visual style and layout of your website. We'll ensure that the design perfectly reflects your brand identity and reflects the essence of your business.

Step 2.

Information Gathering:

We'll provide you with a simple form to gather all the necessary details about your business, target audience, and specific requirements. This step allows us to customize the development process to meet your unique needs and deliver a tailored website.

Step 3.

Content Creation And Approval:

Our expert team will craft compelling content that effectively communicates your message and engages your visitors. We'll keep you involved throughout the process, sharing drafts and incorporating your feedback to ensure the content aligns with your vision.

Step 4.

Final Website Delivery:

Once all the elements are in place, we'll present you with the complete website. Our team will meticulously develop and refine every aspect, ensuring a seamless user experience and a visually stunning online presence.

*All communication takes place with the project manager - no chatbots or virtual assistants.
